- Feasibility Studies, Due Diligence & Valuations

Red Tree Dyke, Westmorland Project

CAPABILITY

Mining Associates is a specialist minerals and energy consultancy based in Brisbane, Australia. We are focused on providing you with an understanding of the fundamental controls to add value to your investment. The company undertakes high level work across a wide spectrum of mineral commodities, geological settings and mining methods on a diverse range of projects both within Australia and Internationally. We are focused on supplying specialist advice and world's best practice products. We have a strong combination of "hands on" experience and the latest methods to provide our clients with unique solutions to their needs.

Mining Associates staff and associates have been working on uranium projects for more than 20 years across a wide range of deposits in the Australasia/Pacific area. This has focused on exploration support, deposit geology, ore body modelling, resource and reserve estimation for project development, production support and in an independent technical advisory capacity. MA are aware of, and experienced in, the specialist skill areas required for operation in the uranium industry.

Staff Project Experience
